

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

EDITED BY

HONORARY SECRETARY OF THE HARLEIAN SOCIETY.

VOL. III.—1810 to 1823.

LONDON:

1896.

## Preface.

---

THIS Volume (the third issued by this Society) of the Register of Marriages in the Parish of St. George, Hanover Square, commences with the year 1810, and is carried down to the end of the year 1823.

The entries of which these are copies are contained in part of the tenth volume, the whole of the eleventh and twelfth, and part of the thirteenth volume of the Registers of this Parish.

During the period embraced by this Volume marriages became more frequent at this Church, and it continued to be the chief place for the marriages of persons of distinction.

No mention is made in this Preface of the many entries therein that are of the most value to the Genealogist and Biographer, inasmuch as they are to be found in the carefully compiled Index at the end of the book.

As in the previous Volumes, the names of witnesses, when they appear to be of interest in themselves, or to be useful for the purpose of identification, have been placed in the footnotes.

The next Volume of these Marriages will complete the period up to the date when the Civil Registration Act of 1836 came into force (6 and 7 William IV., c. 86).

The thanks of the Society are again due to the Rev. David Anderson, the Rector of St. George's Church, for permission to continue the transcript of the Register, and to Mr. Charles Maisey, the Vestry Clerk, for his ever ready help.

To the Transcriber, Mr. A. H. Heppell, and the Compiler of the Index, Mr. J. Cuthbert Welch, the Members are indebted for careful and accurate attention.
